Director's Corner

Kantorei KC began as an ensemble in 2009, but as an organization in 2011. We began as a small assembly of local professional vocalists and teachers. Over the years, our organization has changed its mission and scope, to include a focus on passing the torch of the Fine Arts and specifically high level Choral Music making in the community on to the next generation.

Choral Scholars began in 2013 at the first meeting of the Kantorei Summer Choral Institute. The concept you see here tonight matured in 2019 as Kantorei KC was invited to perform at the National Convention of the American Choral Directors at the Kaufman Center. We needed reinforcements. It was during this project that I realized the potential of such collaborations with these talented young adults.

Our hope for the future is to continue to expand our possibilities for collaboration with children, youth and young adults. Thank you for coming, and we hope you enjoy our program.

Chris Munce, Artistic Director
